Innovation on Display: Urschel and KRONEN Systems Together at Pack Expo 2025

september 28, 2025 | Bron: **Urschel Laboratories, Inc.**

On display at Pack Expo Booth N-7410 at the Las Vegas Convention Center, September 29 – October 1, view Urschel cutting machinery and KRONEN systems in one location. Urschel, The Global Leader in Food Cutting Technology, has expanded its portfolio by offering KRONEN processing systems in key international markets. Through a strategic investment, Urschel now holds a stake in KRONEN GmbH, the German-based developer and manufacturer of innovative food processing solutions.

KRONEN's extensive lineup - including peelers, washers, conveyors, slicers, dicers, dryers, mixers, and preparation equipment—complements Urschel's world-renowned cutting technology. Together, this collaboration broadens the range of solutions available to customers and enhances opportunities for integrated food processing lines.

Alan Major, Chief Sales Officer, Urschel:

“By offering KRONEN machinery through Urschel, we’re giving our customers access to a wider portfolio of high-quality, efficient solutions—all powered by Urschel’s trusted expertise and quality service. View the newest innovations from both Urschel and KRONEN at the show.”

The collaboration was first announced May 13, 2025.

Customers in the United States, Mexico, Pakistan, and China can now purchase KRONEN equipment directly through Urschel. Existing Urschel sales representatives will continue to assist with both Urschel and KRONEN product inquiries, ensuring seamless support and service.
