Welcome to KRONEN
Machinery we present live and in function:

Trade Fair Premiere: K650 Drying System
KRONEN extends its portfolio and presents an ideal system for the industrial application for drying a wide variety of lettuce and vegetable products as well as sliced fruit in a continuous treatment process.

Integrated UVC water disinfection: Washing machine GEWA 3800 B PLUS
KRONEN offers integration of a new UVC water disinfection system. The wash water is permanently disinfected and returned to the water cycle as germ-free process water. For this purpose the market-proven UV components of sterilAir® are in use meeting the high demands of the food industry in an optimum way!

We cordially invite you to celebrate our anniversary with us: 40 years of experience and innovation for the food processing industry! You may expect a little anniversary present at our stand.

And you can enjoy special culinary delights on each day of the show at our
Live Cooking: from the field to the table
Be inspired by delicious dishes of the gourmet chefs Wolfgang Blum and Andreas Eigner!
